INTRODUCTION

On 29th of October 2022, 21 students of 3rd year B.Sc Botany along with 2 faculty members of Nanda Bihari Saikia College, Titabar, Jorhat visited Quality Pharma Products Pvt. Ltd, Lahoal industrial Area, Dibrugarh - 786010. All in there were 21 students of 3rd year B.Sc. Botany who actively participated in the visit which was successfully coordinated by Dr. Nazim F. Islam and Dr. Pranabananda Bhattacharya. A brief introduction about industry was given by the manager of the industry.

DETAILS OF JOURNEY

On 29th of October 2022, we started our journey from Titabon tiniali at 6:00 A.m. We reached Sibsagar after 2 hour and we ate our breakfast which was sponsored by Dr. Nazim Foid Sir. After breakfast we started our journey and arrived the industry at 10:45 A.m. After arriving we got the permission to enter the industry. After we got the permission, we entered to the industry, we met the manager of the industry, he taught us about the industry and we proceeded.

Firstly we were taken to gowning room separate for male and female and provided with gowns and caps to avoid contamination of the products. After the industry visit was over, we changed our gowns and went outside the industry. Then we took cup of tea with biscuits which was offered by the industry manager. After this we returned from the industry, and we had our lunch in a hotel. After the lunch we started our return journey from Dibrugarh at 1:15 pm, we reached our hometown at around 8:30 pm.

ABOUT THE INDUSTRY

When we entered the ~~ind~~ inside the industry, the manager taught us about the different types of instruments and their functions. The industry manager and two industry employees helped us to know about the machines and their functions, procedure and the packing system. There we saw autoclave, spectrophotometer, oven, laminar air flow, etc. We saw a microbiology laboratory. We were not allowed to click pictures inside the industry. It is totally prohibited by official.

Quality pharmaceutical industry manufactures various types of tablets, and liquid medicines, medicinal creams. Some medicines like ~~and~~ aceclifenac, clonazepam, Levamisulprides, Mecobolomin, Meropenam, Pentoprazole etc are manufacture in this industry.

CONCLUSION

Industrial visit is considered as one of the tactical methods of teaching. The main reason behind this is, it lets students to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim of industrial visit is to provide students a good exposure to students about practical working environment. They also provide students a good opportunity to gain full about industrial practices. After visiting an industry students gain a combined knowledge about both theory and practical.

I am convinced that such a industrial visit as a whole is really helpful to the students in general.
