Finally , I thought i have taken special case to give a correct account there may be some mistakes. So, i seek apology for my unwilling mistakes, if there may be any , in my description.

With thanks,

Mr./Ms. Liza Borah.....

B.Sc. 5th semester

Dept. Of Botany

N.N. Saikia college

Introduction

Educational excursions are of great value for the students of science. The theoretical knowledge earned by a student about a living things such as plants and animals remains limited and incomplete. But if the students study this living things in their natural condition the knowledge will be increased.

Industrial visits are usually the first point of interaction between a student and a living working industry. The students learn about the latest technology trend and make up their minds about their future jobs on area of interest.

Selection of Place:

In course of industrial tour we visited Quality Pharmaceutical Industry. It is situated in the district of Dibrugarh of Assam. This industry is rich for the manufacturing of antibiotics.

Address: Lahoal Industrial Area,
Dibrugarh-786010

GST No.

CSD 18AAACQ0919R5ZU

On 29th October 2022 we started our journey from Titabar chariali at 6:00 AM. We reached Demow after 2.45 hours and at that place we took breakfast which was sponsored by Dr. Nazim Fouid Sin. After breakfast we started our journey and we arrived in the industry at 10:45 am. After arrival we were waiting for permission and

Our Pranab and Nazim Sir were going to took permission. After got the permission we entered to the industry. We met the manager of the industry. He is very intelligent person and he told us about the industry.

After this we entered inside the industry and we changed our dress. A special apron were which was gifted by the industry manager. This industry have three floors after this we visited whole the industry. The industry manager informed us and told the different types of instruments and their functions. The industry manager and two industry employees helped us to know about the machine and the function, procedure and the packing system. We saw autoclave, spectrophotometer, Oven etc. We saw a microbiology laboratory. We can't captured any photographs inside the industry because it is totally prohibited by official. Quality pharmaceutical industry manufacturers various types of tablets and cosmetics some medicine like

aceclifenac , clonazepam , Levisulpirides , Mecobolomin,
Moxipemam , Pentoprazole etc. are manufacture in this
industry

After the industry visit we changed our
apron and went to outside the industry. Then
we took cup tea with biscuits which was sponsored
by industry manager. After this we returned
from the industry and we took lunch in a hotel.
After took the lunch we started our return
journey from that hotel at 1:15pm. We reached
our home town at 8:30pm.

CONCLUSION

Industrial visit is one of most important source of acquire knowledge and I have no hesitation to say that it is apart and the pencil of the education system. It always supplement our theoretical knowledge. BACON says "TRAVELLING IN THE YOUNGER IS A PART OF EXPERIMENT" The industrial visit which have undertaken helped me to realize reality of the statement by BACON. During the course of industrial visit we have studied various instruments of microbiology.

I am convinced that such a industrial visit as a whole it really helpful to the students in general to those have to Botany as a disciple of their study in particular.
